 Los Angeles, California

## PROFILE

A graduate of Columbia College Chicago with a degree in Film & Video and a concentration in Production Design. I began my career as an Art PA and advanced to Set Designer, gaining hands-on experience across productions. I am self-taught in 3D modeling and drafting, bringing both technical and creative skills to the table. I'm seeking opportunities that challenge me and allow me to continue learning, with the goal of contributing to Film, Television, and Commercial projects of any scale.

## SELECTED WORK
